GRAPHIC DESIGNER / PRINT SPECIALIST

Graphic Designer and Print Specialist with 10+ years of advanced experience in Adobe Illustrator and digital-to-physical production. Expert in specialty and large-format printing, RIP workflows (Rasterlink, Onyx), and production file creation. Strong leader and process innovator known for precision, efficiency gains, and high-quality execution under tight deadlines.

Core Strengths

- Expert in Adobe Illustrator; advanced print production file creation
- Proficient in Photoshop, InDesign, Rasterlink & Onyx RIP software
- Large-format flatbed printing & specialty print processes
- Branding, logo design, typography & layout (print/web)
- Variable data workflows (Illustrator & Streamline)
- Automation, scripting & Gen.AI workflow adaptation
- Lean Manufacturing, 5S, process optimization
- Team leadership, delegation & project management

SKILLS

- Illustrator, InDesign, Photoshop
- Print production & manufacturing
- RIP software (Rasterlink, Onyx)
- Product & package design
- Vector illustration & identity systems
- Photo editing, retouching & color correction
- File organization & asset management
- Web & social media content design
- Basic 3D (SketchUp)
- Fine printmaking

ACHIEVEMENTS

- Co-developed proprietary print process and registration system enabling precise alignment on asymmetrical parts (without photogrammetry).
- Led print production and contributed to the design of 2024's Boston Marathon Finisher medals (featured on WCVB Channel 5 "Made in Mass").
- Reduced setup times by ~66%, dramatically lowered defect rates, and implemented automation and standardized workflows.
- Developed new sub-product in Ashworth's Acrylic Awards line.
- Independently created and published "Starjourn", a tabletop card & dice game (mechanics, art, branding, web, marketing, production).
- Artwork featured in gallery exhibitions; two poems published.

WORK EXPERIENCE

Print Team Lead

Ashworth Awards | Dec 2021 – Present

Industry-leading manufacturer of medals and awards, including the Boston Marathon.

- Lead team of 4–5 associates operating advanced large-format flatbed printers.
- Improved and expanded proprietary Dimensional Steel print process.
- Developed registration, proofing, job tracking, and database improvements.
- Integrated proprietary processes across new machines and software.
- Led production and contributed to design of 2024 Boston Marathon Finisher medals.
- Instituted preventative maintenance automation system.
- Pioneered R&D initiatives driving cost savings and quality gains.
- •NDA limits discussion of certain proprietary processes and clients. •

Designer / Developer

SPM Designs LLC (Smurphshire) | July 2019 – Present

- Solo developer of “Starjourn”, a single-player space-themed card & dice game.
- Designed mechanics, artwork, branding, packaging, website, and marketing.
- Developed digital demo and coordinated print-on-demand manufacturing.

Freelance Graphic Designer

SPM Designs LLC / Independent | Sept 2011 – July 2019

- Logo design, typography, and brand identity systems for local businesses and events.
- Seminar contributor teaching logo design fundamentals to small business owners.
- Clients included Plymouth State University, Draper & Maynard Building, Copper Cannon Camp, String Theory/Orbis, Narrative I, Urban Autosports, and others.

ADDITIONAL LEADERSHIP EXPERIENCE

Receiving Supervisor

Bed Bath & Beyond | 2014–2021

- Managed receiving operations, shipping compliance, manifests/BOL, and inventory flow.

Supervisor / Keyholder

Goodwill NNE | 2019–2020

- Supervised up to 15 associates; managed scheduling and production goals.
- Oversaw eBay department for optimized resale pricing.
- Implemented procedural and documentation improvements during COVID-19.

EDUCATION

Plymouth State University — Graphic Design (2012–2015)

- Student Design Company member (client-based internship)
- Student Exhibition Committee (Collins Gallery)
- Artwork featured in gallery shows; poetry published in “Centripetal”

Montserrat College of Art — Graphic Design (2009–2010)

- Foundation in fine art & design principles
- Multiple gallery showings

ARTIST MISSION STATEMENT

My mission is to bridge the gap between digital design & tangible reality, ensuring that each digital creation transitions seamlessly into physical prints and products. I am dedicated to preserving the significance of experiencing art and design in its most tangible form, celebrating the beauty and impact of physical presence in our digital age. Through meticulous craftsmanship and innovative techniques, I bring digital visions to life, fostering a deeper connection between the creator, the viewer, and the place it finds them.
